#### **DETAILED ACTION**

### Election/Restrictions

- Applicant's election of species IV, Figure 7 in Paper No. 4 is acknowledged. Because 1. applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
- 2. Claims 5-19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 4. Applicant is informed that claim 5, reads on a different species than species IV, Figure 7, and consequently is withdrawn from further consideration.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the

Application/Control Number: 09/911,327

Art Unit: 3636

reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

- 4. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Eames. Eames. Eames shows the use of a plurality of flexible layers (12,18) having a flexible pad (16) therebetween. Side edges of the layers are fastened together form a pair of generally parallel seams (29). A stiffener layer (26) is disposed between the flexible layers.
- 5. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Robinson.

  Robinson shows the use of a plurality of flexible layers (18,19) having a flexible pad (17) therebetween. Side edges of the layers are fastened together form a pair of generally parallel seams (L)

## Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference No. 2,865,436, 4,558,904 and 5,318,348 show features of the claimed invention.
